Comments:

1. Minimum Quotation Step is the minimum value, by which the price of all quoted Financial Instruments may be changed.
2. One Lot is a transaction unit for all quoted Financial Instruments.

3. Profits and losses in EOPS are expressed in the Base Currency after recalculation of the profits and losses established in the second currency of the pair or in the currency, in which the value of the Financial Instrument is expressed at the Broker RallyTrade LTD Exchange Rate.
4. Trading services are provided Sunday 11 p.m. CET/CEST to Friday 10 p.m. CET/CEST. Trading hours for individual instruments don't apply outside of this time frame.
5. RallyTrade LTD reserves that Financial Instruments, for which the reference instruments are the levels of stock indices and derivative contracts are the instruments of “over-the-counter” nature. Prices of aforementioned Financial Instruments are established by RallyTrade LTD and reflect the actual values of stock indices and derivative contracts, however current purchase and sale prices may differ from the levels of these instruments quoted on organized markets.
6. Standard Transaction Spread as observed between 08:00 a.m. – 08:00 p.m. CET/CEST. Standard Transaction Spread is expressed as an approximate value which is based on historical spread quotations. Due to fluctuations in the liquidity and volatility of the Underlying Instrument, the Standard Transaction Spread may be subject to changes, and must not be calculated as a median or average spread value.
7. Standard Transaction Spread, Minimum Order Size, Maximum Order Size and Minimum Transaction Step are reference values and they may change in case of significant volatility or limited liquidity of the Underlying Instrument.
8. Standard Transaction Spread is not applicable to periods of market opening on Sunday at 11:00 p.m. CET/CEST. Due to limited liquidity and higher than average volatility, which is frequently observed in this period, RallyTrade LTD starts trading at the Financial Instruments with the increased level of the Spread. The Spread comes back to its standard level as soon as liquidity and volatility at the base markets allows, usually it takes from 10 to 20 minutes, however, in case of the limited liquidity or increased volatility, it may take longer.
9. Dates of position rollover between the consecutive series of contracts, which also constitute the base for valuation of the Option Financial Instruments, are available in the Rollover Table.
10. All transactions on ITA40 are subject to FTT (Financial Transaction Tax). The tax is charged as a fixed fee related to the notional transaction value. The following scheme presents the notional transaction value brackets and related tax values:
